Reference for Mr Rod Courts

To whom it may concern

Rod worked for P&D Specialist Services Ltd as a Project Manager from May 2013 to Sept 2014.

Projects included:

- Refurbishment of the Lighting, Power & Environmental Systems at St Chad's & Queensway Tunnels, Birmingham for Amey LG Limited
- NET₂, Nottingham tramway extension for Alstom Transport
- Various commercial electrical installations
- Hospital electrical installations

Rod was key to overseeing a team of Electrical subcontractors and ensuring they adhered to the client's programme and budget.

During his time at P&D his role involved meeting with weekly subcontractor, liaising with the client and key suppliers. Also ensuring technical specifications, drawings & programmes aligned with project delivery dates. In addition Rod had to ensure his team complied with Health & Safety rules and regulations.

Rod has a great depth of Electrical Industry experience and relevant qualifications, he is able to work individually and as part of a large site team therefore I would have no hesitation in recommending him.

Dave Musgrave

Operations Director
